

Displaybox is an effective external advertising medium used for the outdoor media industry. This lightbox has a lockable frame mounted on hinges, enabling quick and easy change of graphics via a special key.

The front panel of the Displaybox is made from 5mm thick toughened glass and has the addition of two gas struts to assist with opening the box. There is also an automatic power cut off when opening the unit for extra security and safety when changing adverts and promotions.

All the features stated above add up to make the unit as tamper proof and

vandal proof as possible. Displaybox is the optimum illuminated advertising sign for larger outdoor media applications including:

Hotels, museums, libraries & galleries, car parks, air, rail & ferry terminals, shopping centres, cinema and venue promotions.

The overall depth of Displaybox is just 57mm.

Displaybox is available to accommodate the following size posters:

6 sheet (1750mm x 1188mm)  
A0 (1189mm x 841mm)

To change the poster one has to unlock the top profiles with a special key so that the top frame can be swung open and the poster can be changed via a snap profile. In between the top and base profile, there is a rubber sealing to make the product water resistant.

Light box Frame: Aluminium back panel, with hinged frame, only 57mm deep. Requires security key to open.

Painted to RAL 9005 Black

Toughened glass 5 mm, provided with a 80mm screen printed border.

Electrical: 2 x 54W FQ T5 tubes (A0) / 2 x 80W FQ T5 tubes (1750mm automatically switches off the power when the light box is unlocked. EC approved.\*

Certification: CE certified

IP Rating: IP66 (Totally protected against dust; Protected against high pressure water jets from any direction. Limited ingress permitted.)

\* Philips T5 Daylight tubes have an average lifetime of 20,000 hours. These tubes can be purchased at most local hardware stores and are easily replaceable within the light box, unlike Cold Cathode or LED light boxes.

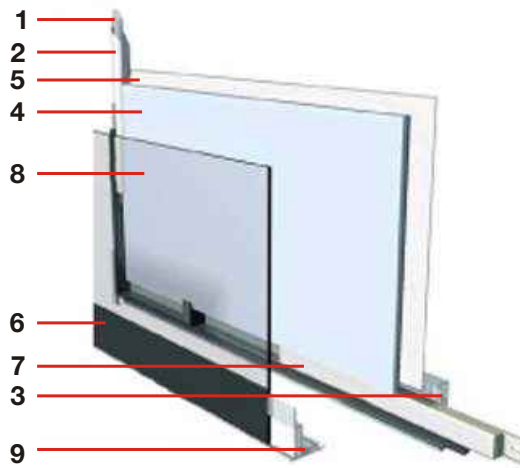

Signbox can produce photo quality inkjet prints onto backlit film for your light box, they can be designed by us or printed from your digital file.
